

A M E N D M E N T S t o t h e C L A I M S

1 – 30. (CANCELED)

31. (NEW) A method comprising:

receiving a request by a player for a plurality of lottery game outcomes;
receiving at least one parameter for revealing lottery game outcomes, in
which the at least one parameter is selected by the player;
determining a plurality of lottery game outcomes;
storing the plurality of lottery game outcomes at a device that is associated
with the player; and
after storing the plurality of lottery game outcomes, revealing each lottery
game outcome to the player in accordance with the at least one parameter.

32. (NEW) A method comprising:

receiving from a player at least one preference for delivery of game
outcomes;
determining a plurality of game outcomes; and
in accordance with the at least one preference for delivery of game
outcomes, transmitting the plurality of game outcomes to a communication device
that is associated with the player.

33. (NEW) The method of claim 32, further comprising:
receiving from the player a preference for revealing game outcomes; and
revealing at least one of the plurality of game outcomes via the
communication device in accordance with the preference for revealing game
outcomes.
34. (NEW) The method of claim 32, further comprising:
revealing at least one of the plurality of game outcomes via the
communication device in response to a signal from a lottery server.
35. (NEW) The method of claim 32, in which transmitting the plurality of game
outcomes to the communication device that is associated with the player in
accordance with the at least one preference for delivery of game outcomes
comprises:
transmitting a first game outcome to the communication device; and
transmitting a second game outcome to the communication device a
predetermined period of time after transmitting the first game outcome.
36. (NEW) The method of claim 35, in which no request for delivery of the
second game outcome is received from the player after the first game outcome is
transmitted.

37. (NEW) The method of claim 32, in which transmitting the plurality of game outcomes to the communication device that is associated with the player in accordance with the at least one preference for delivery of game outcomes comprises:

automatically transmitting at least one of the plurality of game outcomes to the communication device in accordance with a schedule.

38. (NEW) A method comprising:

receiving a request by a player for a plurality of instant lottery tickets;
receiving at least one parameter for revealing outcomes of instant lottery tickets, in which the at least one parameter is selected by the player;

determining a plurality of instant lottery tickets, each instant lottery ticket having a respective outcome;

storing the plurality of instant lottery tickets at a device that is associated with the player; and

after transmitting the plurality of instant lottery tickets to the device, revealing to the player the respective outcome for each instant lottery game ticket in accordance with the at least one parameter.
